Fronius w/  
integrated  
disconnect
- System size: 32.3  
kW
- Project type: Not  
for profit
- Incentives: ZRECS

## Cathedral of Faith

Bridgeport, CT

Our friends at Cathedral of Faith in Bridgeport, CT now have extra piece of mind, knowing that their awesome SunPower 33 kW solar system is producing clean energy for their use, as well as lowering church operation costs. With these huge monthly and annual savings, there will be more opportunity to allocate funds to the things that matter most, such as praise and worship, and serving the community. The ZREC incentive program also provides the church a revenue stream that will be paid to them quarterly by the utility.

**This system is estimated to produce 41,201 kWh in year 1!**

#### Environment Equivalencies

- 6.6 – Passenger cars driven for 1 year
- 3,450 – Gallons of gasoline consumed
- 1,026 – Incandescent lamps switched to LEDs
- 36.1 – Acres of U.S. forests in 1 year
